Health

First Nations, Inuit  
& Métis Program

## About the SE First Nations, Inuit, and Métis Program

SE Health is a national social enterprise providing home care, health solutions and education to people where they are and when they need it. As a not-for-profit organization with Canadian roots and more than 100 years of expertise, we are accelerating health care innovation to support healthy lives globally.

Through partnership and collaboration spanning well over 20 years, the First Nations, Inuit and Métis Program works to support the recognition, understanding, and practice of a nation-based, culturally safe and community driven approach to First Nations, Inuit and Métis health and well-being.

The program is committed to creating and maintaining meaningful community partnerships. From this foundation, we work collaboratively to inspire and facilitate action-based research, knowledge sharing, and community mobilization.

## Education Opportunities

### Online Courses

14 health education courses are available through our award winning e-platform, @YourSide Colleague®. All First Nations courses are developed with and for community health care providers to ensure content is culturally relevant and meets community realities.

@YourSide Colleague® is provided free of charge to health care providers working in First Nation, Inuit and Métis communities.

The SE First Nations, Inuit and Métis (FNIM) Program is now an accredited institution of la SOFEDUC. The FNIM Program can now grant continuing education units (CEUs) for our courses on @YourSide Colleague®.

### Webinars

E-learning events have been delivered to thousands of community health care providers in areas such as cancer control (including survivorship and palliative care), chronic disease prevention and management, diabetic care, fall prevention and management, the benefits of physical activity, kidney health, suicide prevention, and many others.

### Program Website

A national portal for sharing information and community best and wise practices is offered in English and French: <https://fnim.sehc.com/>

## SE Learning

SE Learning leverages SE Health's 100 years of experience, large clinical infrastructure, in-house e-learning development team, career college instructors, and research center to develop, deliver, and evaluate new education programs. SE Learning works closely with our FNIM Team to support and meet the learning needs of First Nations, Inuit and Métis. SE Learning offers a holistic solution:

**Essential Learning** - ready-to-deliver essential health-care education programs developed and taught by clinical and education experts with flexible e-learning, face-to-face, and blended learning methods.

**Custom Learning** - custom education programs localized to meet the cultural and capacity needs at the organization and community level.

**Capacity Consulting** - inter-professional team of clinical and strategy experts that are highly experienced in helping health care organizations assess deep needs and supports organizations throughout change implementation.

## SE Career College of Health

Our goal is to impart upon our students cutting edge health knowledge, skills and competencies, enabling them to provide exceptional client experiences and to create positive working environments.

SE Health Career College is a regulated and registered not-for-profit vocational school that focuses exclusively on health education.. Our Health Career College is led by SE experts and leaders in health care, community health, adult education, and culturally safe care.
